Private Sessions with Pat Caffrey

Pat is a clear vessel of love. She is a Master Channel and voice for the *Angelic Council of Light and the Healers of Light*. These are beings of love and light that have been manifested to lead and guide humanity on Earth. They are sometimes known as the Elders of the Angelic Realm and Ascended Masters. They are love in essence and are manifested in voice by Pat as she speaks their thoughts and words. They have asked her to be their representative in this world so they can interact with you on a one-to-one level and they are anxious to share their wisdom with you. As this vessel, she brings you both global and personal wisdom, information and messages. She has been asked by spirit to open herself to carry healing energy to the world. This touches and opens your heart in a way you never thought possible.

Personal Healing Sessions (\$135)

A Personal healing session with Pat consists of lying on the table while she and the *Angelic Council of Light* and the *Healers of Light* work through her to first check for energy blocks in the body, and then move them as needed. She will touch two points on the body, usually the shoulder and leg, to create a connection and a “circuit” for the energy. Your energy level will be raised significantly in the process.

Inter-dimensional light is used to move and shift the energy. This movement takes place at an energetic level and carries through to the physical body and light-body as well. In our third dimensional experience it is recognized as Photonic Spectral Light. The DNA is “opened” in the session and old patterns, fears and beliefs are removed, with your permission, as needed.

People have reported significant experiences of healing, as well as a sense of peace, relaxation, comfort, joy and well-being. This can permanently be a part of the new you after the session. We bring you to a place where there is no illness, disease or injury. It is up to you to bring that experience back with you to your every-day life.

Personal Readings (\$85)

A personal reading consists of sitting with Pat in a quiet space and conversing with her, the *Angelic Council of Light*, your personal guides and whatever Ascended Master are needed for you at the time. You may ask any questions you like and have a conversation with them just as you do anyone else in your world. Often times, past life or alternate life experiences will be seen and discussed when it pertains to your life now. Any other things of importance to your present situation will apply.

A reading is not to tell you where you are going. It will show you the probabilities you have ahead of you. It will not, ever, tell you which one of these things you will choose. A probability is just that. It is not written in stone. We can show you what those possibilities and probabilities are, but not which ones you will choose. It will be up to you to choose which path and choices you make. It is to help you see them clearly and make choices with informed wisdom.

The sessions are recorded and a CD of the reading included.
